**Description**
Victim Operated IED (VOIED)

A type of switch that is activated by the actions of an unsuspecting individual. These instruments rely on the intended target to carry out some form of action that will cause it to function. (UNMAS IED Lexicon)

**Description**
Improvized Explosive Device (IED):

A device placed or fabricated in an improvised manner incorporating destructive, lethal, noxious, pyrotechnic or incendiary chemicals and designed to destroy, incapacitate, harass or distract. It may incorporate military stores, but is normally devised from non-military components. Refers to a type of IED incident that involves a complete functioning device. (UNMAS IED Lexicon)
